

ARCHIVE encoding/digitisation

Digitise Digitise Digitise!

It is all we've been hearing for recent years but how much do we really know?

How safe or future proofed is it?

What are the dangers of doing it?

What are the dangers of NOT doing it?

What are the benefits?

Who is doing it?

How much will it cost?

If any of these questions are a concern to you TVP Archive can help. With key strengths in conservation, preservation, restoration, digitisation and delivery we have, via partnership, pooled the knowledge to support you.

TVP Archive is a flexible and scalable service provider with a "listen first" approach, allowing us to tailor solutions to suit client needs. At TVP Archive we offer quick response and a flexible approach unhindered by corporate pressures.

Clients include: **British Pathe, BBC, Bank of England, ITN and MoD.**

Please contact us for either demonstrations of encoding resolutions or technical advice with a view to entering a digital environment.
